Everyone can become The House. Coinbet gives you the tools.

Created by a team of highly skilled Web 3.0 professionals, we believe that through blockchain technology we can democratize the way online betting works for both sides - The Players and The House.

It is no secret that in the long run, the casino always wins. So why not allow everyone who wants to bankroll betting activities and earn a share of the profits? On the other side, players have full transparency regarding awarding prizes, using a protocol that runs on fair, transparent, and immutable smart contracts.

Current issues with online betting

01

Lack of transparency in prize draws

In a traditional online gambling environment, players have no way of checking the fairness of any draw or result. They have to rely solely on trust.

02

Transparency as to payouts

Similarly, players typically cannot verify for themselves that winnings are distributed honestly, or will be distributed at all.

03

High barriers to entry

In traditional online betting, extremely high barriers to entry exist for individuals who want to launch their casino - especially from a financial and capital perspective.

Coinbet's Value Proposition

Provable Fairness

By leveraging Chainlink's VRF, it can be proved that all settled transactions are fair and randomness hasn't been corrupted.

A new paradigm for yield generation

Coinbet provides new opportunities for DeFi users who seek to gain yield on their holdings through bankrolling betting activities.

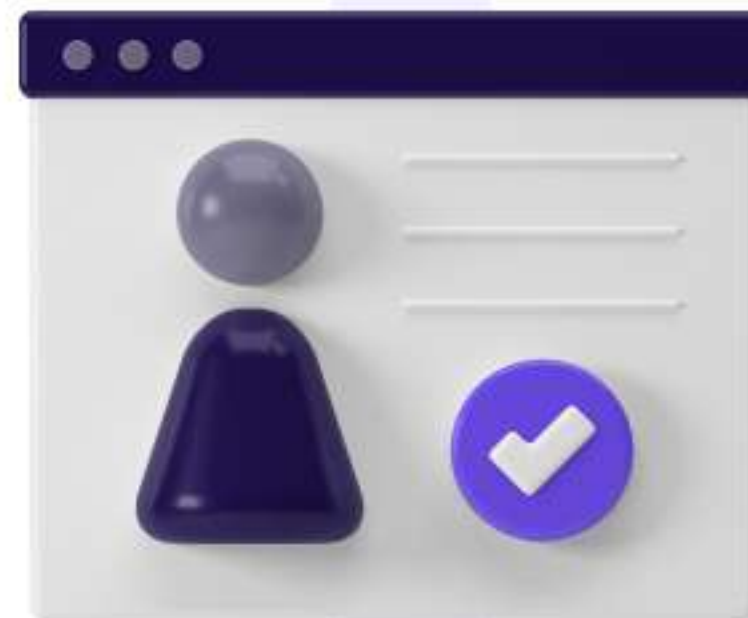

Transparency

There is complete transparency on how rewards and prizes are distributed, as everything is settled by smart contracts.

Target groups

**DeFi
Yield
seekers**

**Online
betting
players**

Web 3.0 and Web 2.0

Market growth

Online betting market projected growth

Online betting market projected growth - The global online gambling market is expected to grow at a compound annual growth rate of 11.7% from 2022 to 2030 to reach USD 153.57 billion by 2030

Market growth

Blockchain market projected growth

Global Web 3.0 Market Size to Reach USD 81.5
Billion in 2030

Go-To-Market

Referral / Revenue-Sharing system for user acquisition

Targeted marketing through multiple mediums

15% of \$CFI token supply for players and LP rewards providers

Integrations with leading DeFi protocols

Coinbet Products

01

Coinbet Yield

Coinbet Yield consists of multiple staking pools (Reward Providers), each of them paired with one or more decentralized betting games. It is part of the portfolio of products developed and maintained by the Coinbet community.

02

Coinbet Play

Coinbet Play is a truly permissionless and decentralized blockchain casino, where players have full transparency regarding awarding prizes, using a protocol that runs on fair, transparent, and immutable smart contracts.

03

Coinbet Plug and Play

Coinbet Plug and Play platform will provide companies, DAOs, and individuals, with the opportunity to deploy their games linked to one of the protocol's reward liquidity pools.
